

Technical Data Sheet

COMPLEX STABILIZER NP-200P

1. Components	Ca/Zn Organic complex		
2. Application	Stabilizer for General Pipe		
3. Properties	Appearance	White Powder	
	Ash(%)	30.0 ± 2.0	
	Moisture(%)	Max. 2.5	
	Bulk Density	0.4 ~ 0.7	
	Impurity	Trace	
4. Characteristic & Usages	This stabilizer is composed of the metal soap and lubricants. Excellent heat stability and process ability. Low odor and volatiles because of powder stabilizer		
5. Physical Form	Powder		
6. Packing Unit	10kg in Paper Bag		
7. Recommended Formulation	PVC Resin	100	
	Stabilizer	3.0~5.0	phr
	Filler	0~10.0	phr
	Pigment	Required
